These lecture notes are not only based on the lecturer's exceptional lectures but also enriched by my personal reflections and supplementary materials gathered from several renowned references, including:

- An Introduction to Quantum Field Theory by Peskin & Schroeder
- Quantum Field Theory in a Nutshell by Anthony Zee
- Quantum Field Theory by Mark Srednicki
- David Skinner's lecture notes on Quantum Field Theory
- Quantum Field Theory Lectures of Sidney Coleman by Sidney Coleman

I hope these compiled notes prove beneficial and insightful for students who aspire to learn QFT.
